 EU Work Permit

SUMMARY

UX/UI & Product Designer with 5+ years of experience across fintech, SaaS, and Web3. Skilled in end-to-end product design — from research, user flows, and wireframes to UI, design systems, and marketing assets. Strong expertise in Webflow, Framer, and AI-driven automation workflows, consistently improving efficiency and conversion rates. Available for remote, hybrid, or on-site roles.

KEY ACHIEVEMENTS

- Increased on-site conversion through structured A/B testing and analytics-driven iteration
- Led the migration of YouHodler's marketing website from Webflow (no-code) to a custom-coded stack
- Acted as Design Lead across multiple departments, scaling design ownership from EU-only to worldwide markets
- Reduced design production time by 2–3× through AI tools and reusable template systems
- Cut Webflow landing page delivery time from 1 day to 4 hours with a systematic design approach
- Implemented automation workflows reducing manual team processes by ~60%
- Contributed to Telegram Mini Apps reaching 20M+ users
- Designed conversion-optimized pages and dashboards across EU, LATAM, IT, and worldwide markets

WORK EXPERIENCE

UX/UI Designer & Design Lead

YouHodler is a leading FinTech platform providing crypto-backed loans and yield products with over 500K users and \$2B+ in processed transactions.

- Owned the website design roadmap — ran A/B tests and analyzed analytics to drive measurable conversion growth
- Led migration of the marketing site from Webflow (no-code) to a custom-coded stack, improving performance and flexibility
- Worked as Design Lead across multiple departments, expanding design ownership from EU-only to worldwide markets
- Optimized creative production with reusable templates and AI tools, reducing design time by 2–3×
- Built Make/Zapier automations and a custom CMS bot for the acquisition team, cutting manual work by ~60% and solving Webflow's import limitations
- Delivered UX/UI for event pages, dashboards, and multi-market landing pages (EU, LATAM, IT, and beyond)

Nexa Agency

Jul 2021 — May 2024 | Germany · Remote

UX/UI Designer & Product Designer

Nexa Agency was a full-cycle software development agency specializing in Web3 and Telegram mini-apps, with a team of 10 professionals including designers, developers, and project leads.

- Worked as a core UX/UI designer in a cross-functional digital product team, delivering full-cycle design from research to developer handoff
- Designed Telegram Mini Apps and contributed to an application reaching 20M+ users
- Created UX/UI for referral systems, SaaS dashboards, and marketing websites focused on the EU market
- Delivered landing pages, app flows, and promo graphics supporting client acquisition and retention
- Worked across the full design cycle: user research → wireframes → prototyping → UI → developer handoff
